

Connection Scheme and Supply Voltage for Low-Level-Sensor 990115, 990258-ECO450 & -ECO600

The scheme for this sensors is identical als „industrial standard“ for all sensors with M8 connectors like following:

Pin 1:	(brown)	24V DC Powersupply (range: 10-30V DC)
Pin 3:	(blue)	GND
Pin 4:	(black)	Output normally open (Standard PNP)
